METAFISICA - ARISTOTELES (Spanish Edition) ARISTOTELES

Aristóteles (en griego antiguo Ἀριστοτέλης, Aristotél's) (384 a. C. – 322 a. C.) fue un filósofo, lógico y científico de la Antigua Grecia cuyas ideas han ejercido una enorme influencia sobre la historia intelectual de Occidente por más de dos milenios.

Aristóteles escribió cerca de 200 tratados —de los cuales sólo nos han llegado 31— sobre una enorme variedad de temas, incluyendo lógica, metafísica, filosofía de la ciencia, ética, filosofía política, estética, retórica, física, astronomía y biología. Aristóteles transformó muchas, si no todas, las áreas del conocimiento que tocó. Es reconocido como el padre fundador de la lógica y de la biología, pues si bien existen reflexiones y escritos previos sobre ambas materias, es en el trabajo de Aristóteles donde se encuentran las primeras investigaciones sistemáticas al respecto.

Entre muchas otras contribuciones, Aristóteles formuló la teoría de la generación espontánea, el principio de no contradicción, las nociones de categoría, sustancia, acto, potencia, etc. Algunas de sus ideas, que fueron novedosas para la filosofía de su tiempo, hoy forman parte del sentido común de muchas personas.

Aristóteles fue discípulo de Platón y de otros pensadores (como Eudoxo) durante los 20 años que estuvo en la Academia de Atenas, luego fue maestro de Alejandro Magno en el Reino de Macedonia, y finalmente fundó el Liceo en Atenas, donde enseñó hasta un año antes de su muerte.

Bob Bartlett:

Playing with family in a very park, coming to see the marine world or hanging out with pals is thing that usually you may have done when you have spare time, in that case why you don't try thing that really opposite from that. A single activity that make you not sense tired but still relaxing, trilling like on roller coaster you are ride on and with addition associated with. Even you love METAFISICA - ARISTOTELES (Spanish Edition), you could enjoy both. It is very good combination right, you still wish to miss it? What kind of hangout type is it? Oh come on its mind hangout people. What? Still don't buy it, oh come on its referred to as reading friends.

Elizabeth Rodrigues:

As a university student exactly feel bored in order to reading. If their teacher asked them to go to the library or even make summary for some reserve, they are complained. Just little students that has reading's heart and soul or real their passion. They just do what the educator want, like asked to go to the library. They go to generally there but nothing reading really. Any students feel that studying is not important, boring along with can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this METAFISICA - ARISTOTELES (Spanish Edition) can make you truly feel more interested to read.

Neil McNatt:

Reading a guide make you to get more knowledge as a result. You can take knowledge and information from your book. Book is written or printed or illustrated from each source this filled update of news. Within this modern era like at this point, many ways to get information are available for a person. From media social similar to newspaper, magazines, science e-book, encyclopedia, reference book, book and comic. You can add your knowledge by that book. Are you hip to spend your spare time to spread out your book? Or just in search of the METAFISICA - ARISTOTELES (Spanish Edition) when you essential it?
