The book's great merit is that it informs a Catholic public, and any others interested in the role of the Catholic Church in modern society, of much they may not have taken note of. There are excellent sections on the Lefebvre movement, on Opus Dei, on liberation theology, on the vicissitudes in recent years of the Society of Jesus, on the Vatican's policy toward Eastern Europe. . . . It is the best study of its kind that has so far appeared. It is noteworthy for the scrupulous fairness with which it handles contentious issues. "

[Hanson's] is a well-written, lively narrative which puts together a staggering mass of recent research on Catholicism as an international system of action, political influence, and belief. . . . Buy it! You will learn more about Catholicism and world politics from it than from any other competing source" "Hanson undertook a most ambitious task indeed, and . . . succeeded in writing an important, eminently readable book. He has contributed substantially to the critically significant study of religion and politics in general and of Roman Catholicism and its diverse relationships to national governments in particular" " [This] study belongs on the book shelf of anyone who wants a comprehensive reference work in the field" Eric O. Hanson is Professor of Political Science at the Jesuit Santa Clara University and a member of the Stanford University Center for International Security and Arms Control. He is the author of Catholic Politics in China and Korea (Orbis)
