## **Focus on Clinical Neurophysiology: Neurology Self-Assessment (Neurology Self-Assessment Series)**

Nabil J. Azar MD, Amir M. Arain MD

This question-and-answer formatted book provides a complete yet focused review of clinical neurophysiology. It contains 534 questions and detailed answers with page references to larger reference books and textbooks of interest. Emphasis is on key concepts that every neurologist/neurophysiologist must master to take qualification boards or to practice this discipline. Coverage includes basic physics and electronics with their direct practical implications, electroencephalography, evoked potentials, nerve conduction studies, electromyography, sleep medicine, autonomic testing and central neurophysiology, and neurophysiological intraoperative monitoring.

A companion Website will present all of the questions and answers in the book in electronic format.

This book is very easy to read you can get the point easily after reading this book.

**Frances Coffey:**

As a scholar exactly feel bored in order to reading. If their teacher asked them to go to the library or even make a summary for some guide, they are complained. Just small students that have reading's heart and soul or real their interest. They just do what the instructor wants, like asked to the library. They go to presently there but nothing reading really. Any students feel that reading through is not important, boring in addition to can't see colorful pics on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we wish. Likewise words say, many ways to reach Chinese's country. Therefore, this Focus on Clinical Neurophysiology: Neurology Self-Assessment (Neurology Self-Assessment Series) can make you experience more interested to read.
