Straight A's Are Not Enough: Breakthroughs in Learning for College Students Judy Fishel

Why do 5000 girls a year not get credit for AP Calculus? How do our mindsets affect our learning? Can we change our own brains, get smarter, or improve our willpower? What happens in your brain when you concentrate on learning? What is the major factor that divides freshmen who do well and those who struggle? These and other intriguing questions are answered in this book. Memorable stories, vivid metaphors, simple images and even a few comic strips reveal ways you can learn most effectively. Many straight A students memorize facts for exams but soon forget nearly everything. What a waste of your time and money! Wouldn't you rather take charge of your own learning and get a great education? Straight A's Are Not Enough is definitely not another book on how to make straight A's. Students who use these powerful strategies will enjoy learning, get a great education, and learn skills employers want most. They can also make straight A's.
