**Itinerant Kingship and Royal Monasteries in Early Medieval Germany, c.936-1075 (Cambridge Studies in Medieval Life and Thought: Fourth Series)** John W. Bernhardt

This book examines the relationship between the royal monasteries in tenth- and eleventh-century Germany and the German monarchs. It focuses on the practical aspects of governing without a capital and while constantly in motion, and on the payments and services that monasteries provided to the king and that in turn supported the king's travel economically and politically. It concludes that German rulers did in fact make much greater use of their royal monasteries than has hitherto been recognized.
