Predator Nation: Corporate Criminals, Political Corruption, and the Hijacking of America Charles H. Ferguson

Charles Ferguson, who electrified the world with his Academy Award-winning documentary, *Inside Job*, now reveals how rogues with influence have taken over the country and are driving it to financial and social ruin.

In *Predator Nation*, Ferguson exposes the networks of academic, government, and congressional influence--in all recent administrations, including Obama's--that prepared the path to conquest. He reveals how once-revered figures like Alan Greenspan and Larry Summers have become mere courtiers to the elite. And based on many newly released court filings, he details the extent of the crimes--there is no other word--committed in the frenzied chase for storied wealth that marked the 2000s. And, finally, he lays out a brief plan of action for how we might take it back.
