Firefighting Strategies and Tactics James A. Angle, David Harlow, Michael Gala, William Lombardo, Craig Maciuba

This book offers comprehensive coverage of all firefighting strategies and tactics, from standard company responsibilities and assignments to specialized situational strategies and tactics. Written by a team of experienced fire service personnel representing a variety of geographic and professional viewpoints, students get first-hand knowledge of strategies and tactics, whether it's fighting high-rise or wildland fires, from people who have been there. In a directed, logical format, this text takes students from basic concepts to the application of tactics and situational strategies for particular occupancies or types of fires. The student is presented with opportunities to get feedback on their progress every step of the way in each chapter. This text can be used in the college and university systems, as well as fire academies and fire departments for educating and training personnel in firefighting strategies and tactics, and it also serves as an excellent resource for fire department promotional exams.

Ronald Ybarra:

As a pupil exactly feel bored to help reading. If their teacher asked them to go to the library in order to make summary for some reserve, they are complained. Just small students that has reading's heart or real their pastime. They just do what the instructor want, like asked to the library. They go to generally there but nothing reading seriously. Any students feel that studying is not important, boring and can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this age, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this Firefighting Strategies and Tactics can make you truly feel more interested to read.
