# Handbook of Food Processing Equipment (Food Engineering Series)

George Saravacos, Athanasios E. Kostaropoulos

**Handbook of Food Processing Equipment (Food Engineering Series)** George Saravacos, Athanasios E. Kostaropoulos

This text covers the design of food processing equipment based on key unit operations, such as heating, cooling, and drying. In addition, mechanical processing operations such as separations, transport, storage, and packaging of food materials, as well as an introduction to food processes and food processing plants are discussed.

*Handbook of Food Processing Equipment* is an essential reference for food engineers and food technologists working in the food process industries, as well as for designers of process plants. The book also serves as a basic reference for food process engineering students.

The chapters cover engineering and economic issues for all important steps in food processing. This research is based on the physical properties of food, the analytical expressions of transport phenomena, and the description of typical equipment used in food processing. Illustrations that explain the structure and operation of industrial food processing equipment are presented.

The materials of construction and fabrication of food processing equipment are covered here, as well as the selection of the appropriate equipment for various food processing operations. Mechanical processing equipment such as size reduction, size enlargement, homogenization, and mixing are discussed. Mechanical separations equipment such as filters, centrifuges, presses, and solids/air systems, plus equipment for industrial food processing such as heat transfer, evaporation, dehydration, refrigeration, freezing, thermal processing, and dehydration, are presented. Equipment for novel food processes such as high pressure processing, are discussed. The appendices include conversion of units, selected thermophysical properties, plant utilities, and an extensive list of manufacturers and suppliers of food equipment.

### **From reader reviews:**

#### **Brian Wilson:**

Do you have favorite book? When you have, what is your favorite's book? E-book is very important thing for us to be aware of everything in the world. Each book has different aim or perhaps goal; it means that book has different type. Some people truly feel enjoy to spend their time for you to read a book. They are reading whatever they have because their hobby is definitely reading a book. Why not the person who don't like examining a book? Sometime, particular person feel need book when they found difficult problem or even exercise. Well, probably you should have this Handbook of Food Processing Equipment (Food Engineering Series).

#### **David Hernandez:**

Hey guys, do you desires to finds a new book to learn? May be the book with the concept Handbook of Food Processing Equipment (Food Engineering Series) suitable to you? The book was written by renowned writer in this era. The actual book untitled Handbook of Food Processing Equipment (Food Engineering Series) is the main one of several books this everyone read now. This kind of book was inspired a lot of people in the world. When you read this e-book you will enter the new dimension that you ever know before. The author explained their strategy in the simple way, therefore all of people can easily to understand the core of this publication. This book will give you a large amount of information about this world now. So you can see the represented of the world with this book.

#### **Lynda Alford:**

Precisely why? Because this Handbook of Food Processing Equipment (Food Engineering Series) is an unordinary book that the inside of the reserve waiting for you to snap it but latter it will shock you with the secret this inside. Reading this book beside it was fantastic author who all write the book in such awesome way makes the content inside easier to understand, entertaining technique but still convey the meaning fully. So , it is good for you for not hesitating having this nowadays or you going to regret it. This amazing book will give you a lot of positive aspects than the other book have got such as help improving your ability and your critical thinking method. So , still want to hold off having that book? If I were you I will go to the guide store hurriedly.

#### **Charles Morris:**

Is it a person who having spare time after that spend it whole day by means of watching television programs or just lying on the bed? Do you need something new? This Handbook of Food Processing Equipment (Food Engineering Series) can be the solution, oh how comes? A fresh book you know. You are so out of date, spending your time by reading in this new era is common not a nerd activity. So what these books have than the others?
