# Clinical Pathology for Athletic Trainers: Recognizing Systematic Disease

Daniel P. O'Connor PhD ATC, Louise Fincher EdD ATC LAT

**Clinical Pathology for Athletic Trainers: Recognizing Systematic Disease** Daniel P. O'Connor PhD ATC, Louise Fincher EdD ATC LAT

Written specifically for athletic trainers, by athletic trainers, the updated *Third Edition* of *Clinical Pathology for Athletic Trainers* emphasizes practical knowledge; development of clinical skills, including evaluation and treatment; and development of clinical decision-making abilities.

The *Third Edition* incorporates full-color photos and images to enhance readers' understanding of the common non-orthopedic pathology that may occur in athletes and physically active people. Chapters are organized by body systems and emphasize the clinical presentation, diagnosis, acute care, long-term management, and return to participation criteria for systemic illnesses and injuries.

Dr. Daniel P. O'Connor and Dr. A. Louise Fincher have incorporated the competencies from the *Athletic Training Education Competencies (5th Edition)* that are associated with the non-orthopedic conditions discussed in this unique text. Competencies that are addressed throughout the text are still conveniently listed at the beginning of each chapter in which they are referenced.

## What's New in the *Third Edition*:

- Full-color photos and graphics throughout.
- Updated head injury screening, evaluation, and return to participation criteria to be consistent with current recommendations.
- Integration of up-to-date NATA Position Statements and Consensus Statements throughout.
- Online lab manual for the development of the psychomotor skills required to evaluate the described medical conditions.

Instructors in educational settings can visit [www.efacultyounge.com](http://www.efacultyounge.com) for additional materials to be used for teaching in the classroom.

## New Lab Activities:

- Use of nebulizer in the treatment of asthma.
- Administration of therapeutic oxygen.
- Use of pulse oximeter for measuring oxygen saturation.

With expanded discussions and case studies, a new online lab manual, and an emphasis on the development of clinical skills, the *Third Edition* of *Clinical Pathology for Athletic Trainers: Recognizing Systemic Disease* is a must-have for today's athletic training students and clinicians as well as allied health professionals working with athletic or physically active populations.
