**[(The Complete Idiot's Guide to Freemasonry)] [Author: S. Brent Morris] published on (November, 2006) S. Brent Morris**

Everyone and their sisters and brothers are waiting for the release of Dan Brown's next book - December 2006, if we can believe the rumors - but we do know that it's going to be called "The Solomon Key", referring to Kryptos Sculpture at CIA headquarters in Langley, Virginia, and that it deals with the Freemasons - or, more formally, the Free and Accepted Masons: a secret society with about five million members, mainly in the U.S. and the English-speaking world. American freemasonry is older than this country, and many of the Founding Fathers, including Benjamin Franklin, John Hancock, Paul Revere, and George Washington were masons - and eager readers are already picturing Robert Langdon racing against the clock again, this time in the streets of our nation's capital rather than Paris. Quick - anyone know anything about the Masons? Are they really as evil as some people say? In "The Complete Idiot's Guide[registered] to Freemasonry", an expert author reveals the truths and dispels the myths that have surrounded the Freemasons for hundreds of years: Were the first masons 14th-century stone masons and cathedral builders, or can Freemasonry really be traced back as far as Egypt, Babylon, and Palestine?; The Masonic insistence on the belief in a Supreme Being; The Masons and the Knights Templar; True or false: the Masons coordinated the Boston Tea Party and the American Revolution; How are Masons initiated, and exactly what goes on in a Masonic lodge?; What's the difference between the York Rite and the Scottish Rite, and are there women and African American Freemasons; and The Masons in the streets of Washington, DC.
