Warning: This ebook contains very explicit descriptions of sexual activity including first lesbian sex, lesbian seduction, and more. Only mature adults who won’t find that offensive should read this story.

Here is a preview:

“Come here. I want to try something.”

I rolled my eyes, because she was the type of person who would go from one crazy scheme to the next, but I let her lead me into the house. She sat me down on the couch, and I thought she was going to go and get whatever it was that was the big deal, but instead, she said, “Lie down,” so I lied down on the couch. The next thing I knew, she’d climbed on top of me.

She’d been into just about every health fad there was, so at first I thought it was some kind of new massage or self-chiropractic technique or something but then, before I could really wrap my head around what she was doing, she leaned down and put her mouth on mine.

It was the craziest thing in the world. Her beautiful black hair kind of flowed down over my face, and then she moved lower. I was in shock. I didn’t say anything, but she looked at me with this absolutely adoring kind of expression, unbuttoned my blouse, and kissed me right on the side of my breast, and then moved back up to put her mouth on mine.

Without even realizing I was doing it, my hands had come up and started to rub her back. She kept unbuttoning my blouse as she kissed me and then, she moved lower.
