Principles of Finance with Excel

Simon Benninga

Principles of Finance with Excel Simon Benninga

Finance is a topic that requires much computation, and in today's business world that computation is done almost entirely using Excel software. Despite this, existing finance textbooks continue to rely heavily on hand calculators. Business school students--whose background in Excel software is often weak when they come into finance courses--find that when they leave the academic environment they have to relearn both finance and the software. Addressing this issue, *Principles of Finance with Excel* is the only introductory finance text that comprehensively integrates the program into the teaching and practice of finance. Offering exceptional resources for students and instructors, the book combines classroom-tested pedagogy with the powerful functions of Excel software. Author Simon Benninga--one of the most recognized names in financial modeling--shows students how spreadsheets provide new and deeper insights into financial decision making.

The second edition of *Principles of Finance with Excel* covers the same topics as standard financial textbooks--including portfolios, capital asset pricing models, stock and bond valuation, capital structure and dividend policy, and option pricing--and can therefore be used in any introductory course. However, it also introduces Excel software as it applies to finance students and practitioners. Throughout the book, the implementation of finance concepts with Excel software is demonstrated and explained. A separate section of PFE provides thorough coverage of all Excel software topics used in the book: graphs, function data tables, dates, Goal Seek, and Solver.

From reader reviews:

Gary McKinney:

What do you regarding book? It is not important along? Or just adding material when you require something to explain what the one you have problem? How about your free time? Or are you busy particular person? If you don't have spare time to do others business, it is give you a sense of feeling bored faster. And you have spare time? What did you do? Everybody has many questions above. They need to answer that question because just their can do which. It said that about e-book. Book is familiar in each person. Yes, it is correct. Because start from on kindergarten until university need this Principles of Finance with Excel to read.

Cornelius Ryerson:

A lot of people always spent all their free time to vacation as well as go to the outside with them family or their friend. Are you aware? Many a lot of people spent these people free time just watching TV, or maybe playing video games all day long. If you wish to try to find a new activity here is look different you can read the book. It is really fun to suit your needs. If you enjoy the book that you just read you can spent the whole day to reading a publication. The book Principles of Finance with Excel it is rather good to read. There are a lot of individuals who recommended this book. We were holding enjoying reading this book. Should you did not have enough space to develop this book you can buy often the e-book. You can m0ore simply to read this book from a smart phone. The price is not too costly but this book offers high quality.

Melissa Peterson:

Exactly why? Because this Principles of Finance with Excel is an unordinary book that the inside of the publication waiting for you to snap the item but latter it will shock you with the secret it inside. Reading this book adjacent to it was fantastic author who write the book in such amazing way makes the content within easier to understand, entertaining means but still convey the meaning entirely. So , it is good for you because of not hesitating having this anymore or you going to regret it. This phenomenal book will give you a lot of benefits than the other book possess such as help improving your skill and your critical thinking method. So , still want to delay having that book? If I ended up you I will go to the publication store hurriedly.

Robert Berman:

What is your hobby? Have you heard that will question when you got learners? We believe that that concern was given by teacher to their students. Many kinds of hobby, Everybody has different hobby. And also you know that little person just like reading or as examining become their hobby. You must know that reading is very important along with book as to be the point. Book is important thing to provide you knowledge, except your teacher or lecturer. You discover good news or update concerning something by book. Different categories of books that can you choose to use be your object. One of them is actually Principles of Finance with Excel.
