Collaboration in the Pharmaceutical Industry: Changing Relationships in Britain and France, 1935-1965 (Routledge Studies in the History of Science, Technology and Medicine) Viviane Quirke

Examining the issue of 'British decline' after the war, this fascinating text describes the evolution of cooperation in Britain and France, and argues that the relationship between these two countries helped to disseminate a culture of research, resulting in the transformation of the medical sciences and the pharmaceutical industry in both countries.

Of interest to a wide range of academic disciplines, this highly relevant book discusses topics including penicillin, sulphamide drugs, and the effects of war in both countries.
