The Failure of the Two-State Solution: The Prospects of One State in the Israel-Palestine Conflict (Library of Modern Middle East Studies)

The Failure of the Two-State Solution: The Prospects of One State in the Israel-Palestine Conflict (Library of Modern Middle East Studies)

Diplomats, politicians and activists alike have long laboured under the assumption that a two-state solution is the only path to peace between the Israelis and the Palestinians. But as this conflict continues unabated, and violence and instability deepen, it seems that the ideal of two states co-existing alongside each other and the ever-elusive goal of peace slips further from reach. The Failure of the Two-State Solution examines the impasse in the Israel-Palestine conflict, exploring the reasons behind the breakdown of attempts to establish a meaningful Palestinian state. This book therefore points to another – until recently unthinkable – option: a single bi-national state in Israel-Palestine, with all inhabitants sharing in equal rights and citizenship, regardless of ethnicity or faith.

Hani A. Faris has drawn together a wide-ranging and in-depth analysis of the historical and current situation in Israel-Palestine. By analysing the history of the conflict in Israel-Palestine and its numerous peace initiatives, this book demonstrates how the current deadlock has been reached. With a nascent Palestinian state hampered by Israeli security policy and internal political divisions and the continuing expansion of the Israeli settlements in the West Bank, it is argued here that the viability of the two-state solution seems to have run its course. And so highlights the one-state solution as an option, and debates and develops the organisational steps and strategies, on a local and international level, that would enable the construction of a bi-national state.

With scholars from the US, Europe, the Arab world and Israel analysing the possibility of a one-state solution and the shortcomings of the two-state track, this is an important and ground-breaking book for students of Politics, International Relations, Peace Studies and Middle East Studies and all interested in the resolution of this seemingly intractable conflict.
