A popular, problem-oriented coursebook, International Business Transactions introduces law students to the conduct of business in the world community, with problems on trade, licensing, and investment. Its coverage is wide-ranging: international sales, letters of credit, e-commerce, trade law, the World Trade Organization, the European Union, the North American Free Trade Agreement (NAFTA), customs law, export and import controls, intellectual property and licensing, franchising, foreign investment, international finance, commercial arbitration, and international business litigation. The coursebook provides hard-to-find legal documents and explains issues that corporate clients are likely to face, such as defending against important competition, expanding exports and overseas markets, and foreign corrupt payments.
