The United States will soon experience a major economic collapse. Experts believe the negative impacts will be greater than the 2008 Recession, Black Monday, or Great Depression. They also believe the value of the dollar will quickly drop by at least 50%. Most people will be surprised. People will lose a lot of money. Not one can predict when this event will occur. However, it will happen sooner than most people think. This economic crisis will be caused by problems with the United States currency. During 1971, the United States was removed from the gold standard. Now the value is based on “confidence.” The debt of the United States is rising at an alarming rate. The United States has more debt than any other nation in the history of the world. By 2019, the national debt will exceed \$20 trillion. A record number of citizens participate in the United States public assistance programs. For example, the number of people on food stamp programs has doubled since 2008. The number of people on Social Security Disability has increased 80% since 2000. Nearly one-half of the population is receiving benefits. The number of people (16 and older) not in the labor force has increased 20% over the past 10 years. This means that almost 95 million Americans don’t work. We believe some organizations will thrive and grow during this economic collapse. Why? First, these organizations will have sustained high-performance on their business results. Second, they will have fully implemented world-class best practices. “... much like my Joy of Cooking cookbook has become my go-to book in the kitchen; Lessons from the Flock will my go-to book when leading a business process improvement initiative.” - LINDA J. BLESSING, PhD President, Linda J. Blessing PhD “... a practical and wise how to book to help professionals to improve their organizations using well-proven tricks of the trade ... it will allow the reader insight that takes years to gain.” - CARLA CARTER President, Carla Carter & Associates
