Once I was blind too, now I see (The Unfolding Storms©. Book 1) Lynn Wojciechowski

Once I was blind too, now I see is the first short story I have decided to make into a series, The Unfolding Storms©.

This is a story about a homeless, depressed woman, whom while trying to save her own life, discovered that it may involve saving humanity as well. Biblical revelations are coming true before my eyes; and the financial future of the United States of America is perilous. Americans choose to ignore the failing political system, and refuse to hold corporations accountable. Whistle blowers are coming forward daily and exposing corruption and cover-ups. Societal behavior is morally void and focused on self-interest. Previously hidden religious documents and artifacts are being discovered. The documentary True Legends: Technology of the Fallen Angels presents evidence that pre-flood architecture and megaliths only scratch the surface about what we do not know and so much more. I believe we are at the beginning of the prophesized Biblical apocalypse. From the conspiracy theories to the Biblical revelations the more I investigate and confirm the information, the more terrifying reality becomes. We live in the most consequential time in the history of mankind! I am compelled to share my connection of the dots.
